

AIMS & PHILOSOPHY

AIMS OF OUR NURSERY SCHOOL

Our aim is to provide a happy, secure and stimulating environment to allow children to develop physically, emotionally, intellectually, socially, morally and spiritually, each at their own pace.

All areas of development and learning are interlinked and of equal importance. We offer a range of experiences and activities to enrich and expand the child's understanding and appreciation of the world in which they live.

We aim to:

- Foster intellectual, physical, emotional, social, moral, aesthetic and spiritual development through a carefully prepared curriculum.
- Offer a welcoming, caring and secure environment where children will develop independence, responsibility, self-esteem and a concern for the needs of others.
- Encourage children to express themselves and their feelings, and to help them to cope with any fears, anxieties or difficult experiences.
- Treat each child equally respecting their individuality, preferences and abilities and to allow them to grow at their own pace.
- Offer opportunities for parental involvement in the intellectual and social development of each child.
- Help each child to reach its full potential by ensuring that learning is a pleasurable and happy experience.

PHILOSOPHY OF THE SCHOOL

Early childhood is a vitally important stage in a child's development as it lays the foundation on which future learning and understanding of life are built.

Our priority is to offer learning opportunities through active play and experiences to prepare children for success in their world. We believe that through listening and talking we will provide a link between home, school and the adult world.
